

Super-Cure

Super-Cure is **Superior Printing Ink's** traditional UV curable series, formulated to provide rapid curing and a laser compatible end product. **Super-Cure** inks are designed primarily for paper and board printing on presses configured with a UV ink train.

The immediate cure of the **Super-Cure** series allows for in-line coating and quick turnaround times.

In addition to the **Super-Cure** process inks, **Superior** also offers inks for narrow web (forms type) presses, high strength PANTONE® blending bases in both standard and coatable formulations and inks for Hexachrome process printing.

Super-Cure G7 process inks have been formulated to conform to the ISO 2846-1 standard allowing the printer achieve a variety of today's print conditions (ISO 12647-2, G7, GRACoL, etc.) in the pressroom.

Super-Cure

Gloss / Coated	Matte /Dull Coated	Uncoated Offset	Board	Non-Porous*	Print Sharpness	Rheology Body	Ink Train	Rub Resistance	High Gloss	UV/AQ Coatable*	Stampable*
